

I m sure u ve heard of all the comments and complaints being sent to you and it s time for u to reconsider being in our shoes.. How wld u feel it u had limited access or connections. It s time for us to have equality between the hearing and the deaf also. Is there any reason why we shld be different or denied access to? Please I ask of u to allow this wonderful opportunity to help us and let us enjoy a chance to talk to our friends, family, business associates and any other type of business . The time is NOW!!!!!!!
